## Education

---

**Indian Institute of Information Technology, Gwalior**  
*Bachelor of Technology in Information Technology (CGPA: 8.43)*

Expected - May 2027  
Madhya Pradesh, India

## Projects

---

### Pricewise

[Github](#)

*Personalized product tracker*

- Developed Pricewise, an application that tracks Amazon product prices and stock status, notifying users of any changes via email. The system utilizes a cron job to schedule regular data scraping and email dispatches.
- Technologies: TypeScript, Next.js, Tailwind CSS

### Landing-Page

[Github](#)

*A Catchy landing page built using Next.js*

- Created a Landing Page with distinct sections: hero, reviews, call-to-action (CTA), key performance indicators (KPI), and footer. Built with Next.js and React, this project emphasizes performance and SEO through server-side rendering and a responsive, component-based layout.
- Contributed to the Project with tech Stack, React, Framer-motion, TypeScript, and other CSS Frameworks.

### Airbnb-Clone

[Github](#)

*A clone of Airbnb with essential features*

- Developed an Airbnb Clone, a web application replicating core features of Airbnb for listing and booking properties. The project is constructed using the MERN stack, with the backend handling data interactions through REST APIs and the frontend delivering a seamless user experience.
- Backend part: Node.js and Express: Built a robust server and RESTful API to manage data operations. MongoDB: Used as the database for storing user and property information.
- Contributed to the Frontend part with tech Stack, Javascript, Ejs and other CSS Frameworks.

## Technical Skills

---

**Languages:** C/C++ Javascript, Typescript, SQL, HTML, CSS, Bash

**Technologies:** React.js, Express.js, Node.js, TailwindCss, Bootstrap

**Database Systems:** MySQL, MongoDB

**Devops / Cloud:** Vercel,

**Tools:** Git, Github, Canva

## Position of Responsibility

### Entrepreneurship Cell (E-CELL)

*Member*

IIIT Gwalior  
Jan'2024 - Ongoing

- Actively contributing member of the Entrepreneurship Cell (E-Cell) club, fostering innovation and startup culture.
